

## **FOLIASTIM** *Calcium SC*

## **Foliar Calcium Solution**

ACTIVE INGREDIENTS: Calcium 30% w/v, Seaweed Extract 22.5% w/v

- Optimises calcium nutrition
- Increases nutrient use efficiency (NUE) of calcium
- Enhances plant resistance to abiotic stress during critical stages
- Helps fight against calcium related physiological disorders
- Increases fruit firmness and shelf life
- Synergistic effect between seaweed and nutrients

CONTENTS 800 L ORGANIC CROP PROTECTANTS 1956 Dandenong Rd, Clayton VIC 3168 Telephone: 1800 634 204 (Free Call) ocp.com.au FoliaStim<sup>™</sup> Calcium SC is a highly concentrated suspension of 30% w/v calcium formulated with 22.5% w/v seaweed. A real innovation in the world of foliar calcium solutions, it's the first product on the market to combine highly concentrated and bio-active seaweed and calcium at such a high level. FoliaStim<sup>™</sup> Calcium SC brings needed calcium during critical fruitset and fruit growth stages, without nitrate, chloride or sulfate, making it a unique solution for such applications.

## **DIRECTIONS FOR USE**

Crop	Application Timing	L/ha/ application	Conc. % (w/v)
Tomato	3-6 applications: As of fruit setting, 10-14 day intervals	2-3	0.7-1.0
Pepper	3-6 applications: As of fruit setting, 10-14 day intervals	2-4	0.7-1.3
Tablegrape	3-5 applications: Starting early berry set, until bunch closing, before veraison	2-4	0.5-1.0
Cherry*	2-3 applications: After petal fall, 7-10 day intervals	2-3	0.3-0.5
Apple**	4-8 applications: As of petal fall, 7-10 day intervals	3-5	0.5-0.8
Cucurbits	3-6 applications: As of fruit setting, 10-14 day intervals	2-3	0.7-1.0
Strawberry	2-4 applications: As of fruit setting, 10-14 day intervals	1.5-2.5	0.5-0.8

\*Cherry: Not recommended for stain-sensitive varieties.

\*\*Apple: Only recommended if cleaning process is applied before market entry. In case of foliar feeding as part of a mix with crop protection products or other fertilisers, a compatibility test has to be done prior to preparing the spray-mix. The mentioned indicated dosages and application stages are given as a guideline. Exact dosages, concentration and application stage are subject to local conditions and use of other fertilisers and can only be given after an objective diagnosis.

STORAGE AND DISPOSAL: Stir well before use. Storage temperature: 0 - 30°C. Store the product in the original packaging. Keep in a dry, well ventilated area, away from sunlight and heat. Triple rinse container and dispose in an environmentally responsible manner.

FIRST AID: If poisoning occurs, contact a Doctor or Poisons Information Centre (Phone Australia 131 126). If medical advice is needed, have product container or label at hand.
